

## Holiday Family Prayer Walk

### **Instructions for Parents:**

Read through the instructions below with your child. Older kids can independently do this, but you will have to greatly assist your smaller kids. This is a good thing. Find the items together and pray for each thing mentioned together. Identify a prize that you can give your child for completing the scavenger hunt. As you walk, remember your kids' legs and attention spans are short. Look for opportunities to make this a great experience for the whole family.

**Instructions for Kids:** You are about to go on a really cool prayer walk! As you walk, look for each of the things below. When you find it, pray the prayer that is listed in the box. Mark out the box when you are done with it. See if you can have all the boxes marked out before your prayer walk is over!
